

**The SCOT Gospel of John and Book of Romans** was produced by Stones Cry Out Ministries (translation by Tom Bear) to fill a special evangelism ministry need. Not only does it include a solid version of the Gospel of John and Book of Romans, it also includes a concise summary of the Bible's redemption message in the back. The SCOT Gospel of John and Book of Romans is a translation from the original Greek Byzantine Textform, sometimes referred to as the Majority Greek Text. It is a precise translation of the original Greek text. It is not a revision of a previous English version, nor is it a paraphrase. The translation is more literal, word-for-word as opposed to the thought-for-thought approach utilized in many other versions today. To help Christians evaluate the SCOT Gospel of John and Book of Romans text, a Kindle version is offered (99-cents) with more detailed information (for evaluation purposes), including many critical notes. (Many of those notes would not be appropriate for a Gospel that is used for evangelism, so they do not appear in the paperback edition.) For very detailed description and understanding of the conventions used in translating, "Look Inside" the Kindle version and read its Preface (for free). [To view it, click this.](#)
